3 Bedroom town house in the historic center

Villa with 3 floors, located in the historic center.

On the first floor we find the living room with dining area, service bathroom and furnished kitchen with dining area and laundry, the second floor has 2 suites, one of which has a closet. The third floor consists of a suite, an office and a terrace with city views.

The penthouse has solar panels and one terrace at the top with a city and sea view.

This villa under construction has the particularity of being able to choose certain materials. Among the materials used we highlight:

- air conditioning;
- double walls with air box insulation;
- white lacquered aluminum windows;
- double glasses;
- existing treated and reinforced wooden door;
